

WARRANTY-----WE FEEL THAT WE SET THE STANDARDS IN THE INDUSTRY AS FAR AS QUALITY CONTROL AND CRAFTSMANSHIP, HOWEVER IF YOU HAVE A PROBLEM WITH YOUR MOTOR WE WANT TO HEAR ABOUT IT. EITHER CALL US OR SEND THE MOTOR TO US, WE WILL BE GLAD TO HELP YOU, DO NOT GO TO THE STORE WHERE YOU BOUGHT IT, THEY ARE NOT EQUIPT TO FIX IT. IF YOU FEEL A WARRANTY SITUATION EXISTS, DO NOT PULL THE BRUSHES OUT OR TAKE THE MOTOR APART IN ANY WAY, THIS WILL ONLY MAKE IT HARDER FOR US TO TELL WHAT THE PROBLEM IS AND WILL VOID YOUR WARRANTY.

GEARING----- AS A RULE, THE MILDER THE MOTOR THE BIGGER PINION YOU SHOULD USE, HOWEVER, OUR PLATINUM MOTORS ARE MADE FOR RACING AND SHOULD BE GEARED FOR MAXIMUM BATTERY LIFE (RUN TIME), OUR HOTTEST MOTOR, THE 4015, SHOULD BE RUN WITH THE SMALLEST PINION THAT WILL WORK IN YOUR CAR BECAUSE IT PULLS A LOT OF POWER FROM THE BATTERIES. A GOOD PLACE TO START WITH THE OTHER MOTORS IS A TWELVE TOOTH, IF MORE RUNNING TIME IS NEEDED YOU CAN DROP DOWN TO A SMALLER PINION, IF TOP SPEED IS YOUR GOAL, THEN YOU CAN USE A FOURTEEN, BUT IT IS ADVISED NOT TO USE ANY PINION BIGGER THAN THAT OR DAMAGE COULD RESULT TO THE MOTOR OR WEAR IT OUT PREMATURELY, FOR EXAMPLE I RUN MY YOKOMO FOUR WHEEL DRIVE WITH A 4017 AND USE A NINE TOOTH ON SHORT TRACK AND A TEN ON LONG ONES.

A LITTLE ABOUT EACH MODEL

2020- ALTHOUGH THIS IS THE MILDEST OF OUR NEW MOTORS IT WILL STILL OUT ACCELERATE MANY OTHER HOTTER BRANDS AND GIVE EXTRA LONG RUNNING TIME TO BOOT! THERE ARE SOME TRACKS WHERE THIS MOTOR WILL BE UNBEATABLE SUCH AS A TIGHT, TWISTY COURSE, OR WHERE THE RACES ARE FIVE MINUTES OR MORE LONG.

#2018- THIS MOTOR IS HAS A HIGHER TOP SPEED THAN THE ABOVE AND IS BASICALLY ALL AROUND FASTER, BUT RUNNING TIME WILL BE REDUCED. IT IS THE BEST ALL AROUND TWO WHEEL DRIVE MOTOR AND SHOULD STILL PERFORM EXCELLENT IN A FOUR WHEEL DRIVE CAR.

#4017- THE ULTIMATE FOUR WHEEL DRIVE MOTOR! THIS MOTOR TAKES ADVANTAGE OF THE EXTRA TRACTION AVAILABLE IN A CAR LIKE THIS. TORQUE OUT OF THE CORNERS WILL BE AWESOME BUT STILL DRIVABLE AND WILL TAKE TO THE STRAIGHTS LIKE NOTHING ELSE ON THE TRACK. EXPECT ABOUT FOUR MINUTES RUNNING TIME WITH GOOD BATTERIES.

#4016- THIS IS THE MOTOR TO HAVE FOR FOUR MINUTE OVAL RACES! IF TOP END AND MID-RANGE TORQUE ARE YOUR GOALS THIS MOTOR WILL HAVE THE COMPETITION COVERED.

#4015- THIS IS THE FASTEST MOTOR WE MAKE AND WE BELIEVE NO OTHER MOTOR PERSON MAKES A MOTOR WITH MORE SHEER POWER THAT THIS. IT WORKS GREAT FOR THREE MINUTE OVAL RACES. IT ALSO HAS POWERED A SCALE DRAGSTER TO THE END OF A SCALE QUARTER MILE IN LESS THAN TWO SECONDS! PUT THIS MOTOR IN YOUR CAR AND STAND BACK!

AS GOOD A MOTOR AS WE MAKE, IT WILL ONLY BE AS GOOD AS THE REST OF THE CAR, THE BATTERIES PLAY SUCH AN IMPORTANT PART IN THE WAY OUR MOTORS PERFORM AND WE WANT OUR CUSTOMERS TO HAVE THE BEST.

WE RECOMMEND TEKIN PRO SPEED CONTROLLERS, THEIR PHONE # IS (714) 498-9518. NOVAK ELECTRONICS MAKES THE BEST RECEIVERS AND SERVOS IN THE BUSINESS WE FEEL. THEY ALSO MAKE AN EXCELLENT SPEED CONTROL. THEIR PHONE # IS (714) 549-3741.

IF YOU HAVE ANY MORE QUESTIONS, PLEASE FEEL FREE TO CALL US. WE FEEL WE MAKE THE BEST MOTORS IN THE WORLD FOR THE BEST CUSTOMERS IN THE WORLD-YOU!!!!!!
